The Two Sets of Delegates. [Correspondence of the Richmond Dispatch. LURAY, VA., June 28, 1886.

Considerable division of sentiment among Democrats was developed here to-day in reference to holding a mass convention of the party for the purpose of electing delegates to represent this county in the District Congressional Convention. C. D. Price, Esq., chairman of the County Democratic Execu-tive Committee, issued a call about ten days ago for the assembling of a convention at the court-house, in Luray, to-day to elect delegates to the District Convention, without having first called the County Committee together to conhad been found delinquent by the court-martial. His case has been before sider the matter and to fix upon a time and place for holding the Convention.

Previous to the assembling of the Convention to-day a meeting of the County Committee was held, at which it was determined by a vote of six yeas to three nays that the Convention had been improperly called by the chair-man, and that a call for a mass-conven-tion of the Democratic party be issued for the first day of the July term of for the first day of the July term of the County Court. The chairman having declined to issue the call, the majority of the committee authorized and empowered Mr. Isaac N. Graves, one of their number, to issue the call. In the discussion and action taken to-day the friends and adherents of W. R. Alexander, Esq., supported the county chairman and the minority of the County Committee, while the supporters of Colonel C. T. O'Ferrall espoused the views of the majority of the committee.

The final result was, after a good deal of speech-making and discussion in the court-house, that the O'Ferrall men withdrew from the court-house and the Alexander men then held their were chosen to attend the District Convention, who will support in the Convention Mr. Alexander.

Another convention will be held at our July court, at which O'Ferrall delegates will doubtless be chosen, and Page county will consequently have two sets of delegates knocking for admis-sion at the doors of the Front Royal Convention on the 4th of August next.

The Richmond and Alleghany Railroad Company have commenced work here preparatory to building an iron bridge across the river. This structure is intended to supplant the temporary one pow in use. The company are also extending the road up the river for a mile, which extension is intended for a side-track for empty care, &c. Olifton Porge is destined to be an important tallroad centre. The iron interests add much to its presperity.

the beac-ball clubs of Low Moor and Clifton Forge, resulting in the Low Moors scoring a victory—17 to 15. An immense crowd was present.

A line of daily coaches runs from this point over the mountains to the Hot and Warm Springs, and the trip is one which is full of interest to the aummer tourist. No doubt is felt that President Cleveland will sign the bill passed by both houses of Congress which authorizes the restoration of Fitz John Porter to the position of colenel in the army of the United States without back pay, and his transfer to the retired list at the discretion of the President. Elizabeth Dugan, the seventeen-yearold daughter of County-Collector Hugh Dugan, heard a noise in the upper part of her father's house, No. 342 Grove street, Jersey City, yesterday after-noon, and went to see what occasioned it. In the room in which her brother sleeps was a stalwart thief rummaging the bureau-drawers. She asked him why he was there, and he made a dart for the door. She seized him as he attempted to pass. He turned upon her and rained blows upon her head. She hugged him close to spoil their force, screaming mean while for help. The Best Way to Cultivate Corn. HANOVER COUNTY, VA., June 26, '86.

To the Editor of the Dispatch : The question of working corn by the best and cheapest plan is having full sway with the farmers of this section. Some hold with the old way of siding the corn and then running the "Iron Age" cultivator, while others stand to the new way of dispensing with the siding and running the "Walking" cultivator. The difference between the two workings is this: The old way takes two men and two teams, while the new way takes one man and two teams. The labor of one man is saved by the new way, but is it the best way? I hope you will publish this for the benefit of your many readers in this section, and trust that others of your
